Winter Indoor Shootout and Invitational

Once the weather turns cool in the Midwest, racers quickly turn to indoor racing to fill the void. Fastlane Raceway in Blue Springs, Missouri has it all and features a well-stocked hobby shop, clay indoor off-road track and oval track all in one building. Chuck Kleinhagen, the front-man has teamed with JConcepts for a unique event for the RC enthusiast as well as the seasoned Pro.

The event is built around a "Reedy Race format" of 2wd and 4wd invitational regional based talent where the occasional "World Champion" drops in to set the pace. The WIS isn't only for invitational drivers, the event sets a spotlight on traditional 2wd, 4wd, stadium truck, and SCT racing so there is always a class for everyone.

The invitational class of ~30 drivers is set by race officials and features a JConcepts control tire program. All other classes support an open tire policy with traditional ROAR rules, qualifying and main event formats. Mark the date, make the arrangements and jump in on the fun November 9-11th 2018 at Fastlane Raceway.
